25X1A

MEMORANDUM FOR: [REDACTED] Materiel Staff.

25X1A

1. During the recent visit to Hqs. by [REDACTED] the problem of changing markings on unit aircraft was discussed. It was generally agreed by G/SPB, Commander Det. G and the IDEALIST Project Officer that the P.O.L. paint could be used under certain conditions very satisfactorily. However under some circumstances decals would probably be far superior due to humidity, lack of spraying equipment, etc.

25X1A
25X1A

2. [REDACTED] requested that he be provided a supply of decals. Please procure and ship a minimum order to [REDACTED] for their use. After a period of use a comparative evaluation of both P.O.L. paint and decals may be made. From this, future practices and requirements will be decided.

SIGNED
